

WIZZ AIR LAUNCHES NEW NAPLES-BRATISLAVA ROUTE, STRENGTHENING CONNECTIONS BETWEEN CAMPANIA AND CENTRAL-EASTERN EUROPE

New route from Wizz Air's Capodichino base: four weekly flights on Tuesdays, Thursdays, Saturdays and Sunday to capital of Slovakia.

Napoli, August 13, 2025 – **Wizz Air**, EMEA's most environmentally sustainable airline¹, is excited to continue its network expansion campaign in **Italy** with the launch of a new international route connecting its base of Naples to **Bratislava, Slovakia**. The new service will offer passengers from Campania a direct travel opportunity to one of Eastern Europe's most dynamic and captivating capitals.

The route will be active starting from 16 December 2025, with flights operated four times a week - on Tuesdays, Thursdays, Saturdays, and Sundays. Tickets are available for purchase from today, 13 August, on wizzair.com or via the [WIZZ mobile app](#). All flights will be operated by the state-of-the-art Airbus A321neo aircraft, known for its lower emissions, comfort, and quiet operation².

Bratislava, the capital of Slovakia, lies gracefully along the picturesque banks of the Danube and is celebrated for its charming pedestrian old town, where elegant baroque buildings stand alongside lively cafés and boutique shops. Overlooking the city from above, the iconic Bratislava Castle offers breathtaking panoramic views, while the city itself strikes a perfect balance between the richness of its centuries-old history and the dynamic energy of a modern, forward-looking capital.

Salvatore Gabriele Imperiale, Corporate Communications Manager at Wizz Air, stated: *"The introduction of the new route between Naples and Bratislava is a clear sign of our commitment to strengthening our presence at our Naples base. As announced recently, a second state-of-the-art Airbus A321neo aircraft will arrive at the Campania base in October. Furthermore, with this new connection, the number of routes operated by Wizz Air from Naples rises to 16 across 10 countries, further confirming the strategic importance of this base. We are keen to reiterate that so far in 2025, we have transported close to half a million passengers on over 2,000 flights with a 100% completion rate. We will continue to offer affordable and reliable connections for our passengers. Let's WIZZ!"*

Margherita Chiaramonte, Commercial Director Aviation of Gesac, commented: *"The new Naples–Bratislava route confirms the recovery and growth of Wizz Air's network from Naples, following the recent launch of flights to Braşov and Craiova. With the introduction of a second Airbus A321neo at the Naples base and 16 destinations planned for the winter 2025/26 season, the airline is strengthening its offer towards Central-Eastern Europe, significantly expanding Capodichino's international connectivity to markets not previously served, providing new opportunities for mobility, tourism, and commercial exchanges for Campania."*

As part of Wizz Air's continued commitment to strengthening its presence at Naples Capodichino Airport – one of the carrier's five Italian bases – the launch of this route will be enabled by the arrival of a second state-of-the-art Airbus A321neo in October 2025. This expansion brings the number of routes served from Naples to **16 across 10 countries**, further underlining the base's strategic role within Wizz Air's network.

¹ According to the CAPA – Centre for Aviation Awards for Excellence 2022-2024, which benchmarks global airlines emissions intensity data and positions Wizz Air as the airline with the lowest co2 per RPK compared to other global and European airlines.

² Compared to the previous generation Airbus CEO aircraft.

Besides not cancelling a single flight between January and July 2025. Punctuality has also seen a remarkable development, with on-time departure performance rising by over 21% compared to the previous year.

The launch of this new service reflects Wizz Air’s strategic initiative, the **Customer First Compass**, a program backed by €14 billion in investments over the next three years. The goal is to elevate the passenger travel experience, support continuous network expansion, and offer increasingly innovative and high-quality services.
